

I respectfully urge you to maintain the restriction on cross media ownership. Lifting this restriction would essentially eliminate the last vestage of a free and independent press left in this great country. I do not want all my media outlets controlled by one or two large cortporations who censor and dictate what news I hear and read about based on their philosophical outlook or their profit motive.

One of the most important elements of a free country is the access to information. As that access is limited, so is our freedom. Please help keep this country free.
